Florida Pavement Type Selection Process

SEPMD Conference
Savannah
2005

Bruce Dietrich. P.E.
State Pavement Design Engineer
Florida DOT Follows AASHTO Guidelines

- Engineering analysis
- Many factors considered
- Decision by district design engineer
Factors for Consideration

- Traffic
- Construction
- Soils
- Drainage
Performance History
- Expected initial service life
- Initial and life cycle costs
Life Cycle Cost Analysis

- 40 year analysis period
- 5% discount rate
- Rehabilitation periods
  Can be based on local experience
